SKILLS

- Mainframe
- JCL (Job Control Language)
- SAS
- Python
- Data Extraction & Manipulation
- Batch Processing, EDI
- US Healthcare/Wealthcare Tech
- SDLC
- FTP software
- Control-M
- AWS, GCP
- Jenkins
- Ansible
- Zabbix, Grafana
- GitHub
- Jira , Maestro

EDUCATION

Bachelor of Engineering
Jamia Millia Islamia
2021

Diploma in Engineering
Aligarh Muslim University
2015

Mohammad Zayd Khan

Mainframe/Data/Batch Specialist

Seasoned IT professional with 2+ years experience in Mainframe operations. Expertise in JCL, SAS, SQL for data extraction and manipulation. Proven track record in end-to-end project implementation, production support, and client interactions. Skilled in batch processing. Committed to continuous learning and adapting to new technologies.

WORK EXPERIENCE

Analyst at Wipro

March 2022 - Present

- Proficiently extract and manipulate raw data from client sources using JCL, SAS, and SQL to meet specific format requirements for further processing.
- Execute data loading processes into DB2 after extraction and manipulation, ensuring accuracy and timeliness of data delivery.
- Demonstrate expertise in IBM Mainframe tools, including JCL, for efficient batch processing and job scheduling, contributing to successful project implementations.
- Function as an Analyst in Batch team, contributing to end-to-end implementation of projects in the US healthcare, wealth care, banking, and technology domains.
- Provide critical production support by handling job restarts, code deployment, and test execution, ensuring on-time data delivery and preventing client escalations.
- Successfully handle and work with complex datasets, showcasing a high level of proficiency in data extraction, manipulation, and cleansing.
- Interact with over 150 clients, understanding and meeting their expectations through effective communication and problem-solving.
- Create, schedule, and run batch jobs via Control-M, contributing to the efficiency of batch processing in the production environment.
- Eager to learn new technologies and explore different domains, showcasing adaptability and a commitment to continuous professional development.
